

MATZAH TASH (Matzah Holder)

Cut two pieces of cloth (we used a nice linen) 17 inches long by 8 ½ inches wide. Lay the two pieces wrong side together. Grab one end, making sure to pick up both pieces and fold in half. You will now have something that measures 8 ½” by 8 ½” four layers thick. Pin the four layers on both sides, leaving the side opposite the fold open and unpinned. On a sewing machine or by hand stitch the two pinned sides as close to the edge as possible making sure to catch all 4 layers. You now have a holder with three compartments, one for each piece of matzah.
